Professional Summary

DevOps-focused Computer Science Engineering student with hands-on experience in AWS cloud infrastructure, Docker containerization, Kubernetes orchestration, Terraform automation, Jenkins CI/CD pipelines, and DevSecOps practices. Experienced in building and deploying Flask-based web applications on AWS EC2 with monitoring using Prometheus and Grafana. Skilled in Linux administration, Infrastructure as Code (IaC), deployment automation, cloud infrastructure management, and system monitoring. Seeking DevOps Internship or Associate DevOps Engineer opportunities to contribute to scalable and automated cloud solutions.

Technical Skills

Cloud Platforms	AWS (EC2, IAM, VPC, S3, Security Groups, Elastic Beanstalk)
DevOps Tools	Docker, Kubernetes, Jenkins, Terraform, Ansible, GitHub Actions, Docker Compose
Programming	Python, Java, C++, Shell Scripting, HTML, CSS
CI/CD & Automation	CI/CD Pipelines, Infrastructure Automation, Deployment Automation, Infrastructure as Code (IaC), Containerization
Monitoring Tools	Prometheus, Grafana
Operating Systems	Linux Administration, WSL2, Networking, Process Management
Databases	PostgreSQL, MySQL, SQLite
Version Control	Git, GitHub
DevOps Concepts	Cloud Deployment, Container Orchestration, System Monitoring, Configuration Management, DevSecOps Practices

Projects

DevSecOps Bug Tracking Web Application

- Developed and deployed a secure Flask-based bug tracking web application with authentication and role-based access control.
- Designed and implemented CI/CD pipelines using Jenkins and GitHub Actions for automated build, test, and deployment workflows.
- Containerized the application using Docker and managed deployments using Docker Compose and Kubernetes.
- Provisioned and managed AWS EC2 infrastructure using Terraform and automated configuration management using Ansible.
- Implemented monitoring and observability using Prometheus and Grafana for infrastructure and application monitoring.
- Applied DevSecOps best practices including secure configuration management, code quality validation, container vulnerability scanning, and deployment automation.

Experience

Shift Incharge (Trainee) — JSW Steel Ltd, Ballari

Aug 2022 – Mar 2023

- Coordinated operational workflows while ensuring system efficiency, process monitoring, and issue resolution.
- Collaborated with cross-functional teams to improve troubleshooting and operational management activities.
- Developed strong analytical, communication, leadership, and problem-solving skills in production environments.

Education

B.Tech in Computer Science & Engineering GIET Engineering College, Rajahmundry CGPA: 7.37	<i>2023 – 2026</i>
Diploma in Ceramic Technology Government Institute of Ceramic Technology, Gudur Percentage: 80.1%	<i>2021</i>
SSC ZP High School (G), Vetapalem CGPA: 9.0	<i>2018</i>

Certifications

- DevOps Engineering Certification – Udemy (AWS, Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, Ansible, Linux, GitOps)
- Artificial Intelligence & Machine Learning (2024)
- Python Programming & Automation (2025)
